SEWP VI Ordering Guide

Technuf LLC · NASA Solutions for Enterprise-Wide Procurement

CONTRACT NUMBER	CATEGORY	PERIOD OF PERFORMANCE	CONTRACT HOLDER
80TECH26D0424	Category C	Nov 1, 2026 – Oct 31, 2036	Technuf LLC

1 General SEWP Overview

The NASA Solutions for Enterprise-Wide Procurement (SEWP) Program is a Government-Wide Acquisition Contract (GWAC) providing Federal agencies with streamlined access to advanced IT products and services. SEWP emphasizes fast ordering, low administrative burden, and competitive pricing through its catalog-based model and automated Quote Request Tool (QRT).

As a SEWP VI Contract Holder, **Technuf LLC** provides authorized IT products, associated services, and support across multiple OEMs and technology categories. All SEWP orders must comply with FAR, agency-specific procurement rules, and SEWP Program policies.

2 How to Obtain a Quote (SEWP QRT Tool)

All SEWP VI quotes must be requested through the **SEWP Quote Request Tool (QRT)**:

- Visit: https://sewp.nasa.gov/qrt/
- Select the appropriate SEWP VI contract vehicle
- Upload your requirements or product list
- Identify **Technuf LLC** as the Contract Holder
- Submit the request to receive an official SEWP-validated quote

The QRT ensures:

- Fair-opportunity compliance (FAR 16.505)
- Verification of product eligibility
- Automated routing to the correct contract holder
- Audit-ready documentation for your agency

SEWP Usage Fee: 0.34% on orders placed under Technuf's SEWP VI contract.

Technuf responds promptly to all QRT submissions with compliant pricing, lead times, and any required technical clarifications.

3 Procedures for Obtaining Services & Support

For services, technical support, or pre-award assistance, agencies may contact Technuf directly or through SEWP Program channels.

Pre-Award / Technical Clarification

- Assistance with product selection
- OEM compatibility verification
- Services scope refinement
- Market research support
